EXPERIENCE

Software Developer Intern | Dell Technologies | Bengaluru, India | May 2023 - May 2024

- Built and modernized 3 internal cloud-native applications, enhancing security and modularity, resulting in a 30% reduction in load times.
- Implemented OAuth2 to secure microservices and reduce unauthorized access attempts by 35%.
- Reduced application vulnerabilities by at least 50% and reached internal DevOps maturity score of over 90% by fixing broken CI-CD pipelines and migrating deprecated Angular application to use the latest version, related APIs and dependencies.

Teaching Assistant | Shiv Nadar University | Delhi-NCR | January 2023 - May 2023

- Supported the professor in preparing and conducting lectures and assignments for the Operating Systems class, ensuring efficient course delivery.
- Conducted 12 labs and assisted 130 students with complex concepts such as memory management and process scheduling.
- Assisted the professor in ensuring the smooth conduct of 12 graded assignments and 2 exams, supporting students by addressing their queries and answering their questions.

EDUCATION

Master of Science in Computer Engineering | New York University

New York, USA | 2026

Bachelor of Technology in Computer Science and Engineering | Shiv Nadar University | 8.47 CGPA

Delhi-NCR | 2024

PROJECTS

Friday | Automated Code Checking Platform | github.com/meghrathod/friday | February 2023 - April 2023

- Designed and deployed a grading utility for projects in Java, C++, and Python, streamlining the evaluation process of 130 project submissions and cutting manual grading time by more than 40 hours.
- Implemented a responsive user interface for teachers to analyze individual and collective student reports, enhancing grading efficiency and clarity.
- Designed a modular architecture allowing future integration of features like plagiarism detection and support for additional programming languages.

Kabootar | A Peer-to-Peer File Sharing PWA | kabootar.meghrathod.dev/ | August 2022 - December 2022

- Leveraged WebRTC and optimized APIs to enable fast and secure real-time file transfers, benefiting over 200 monthly active users within my class and university community.
- Developed a Golang-based signalling protocol using WebSockets to facilitate seamless peer discovery and connection management in a P2P file-sharing environment.
- Integrated Progressive Web App (PWA) capabilities for cross-platform compatibility, allowing seamless addition of share targets across devices for enhanced user accessibility in file sharing.

chatX | A Java-based Communication Framework | github.com/meghrathod/chatX | September 2021 - December 2021

- Developed a concurrent and multi-threaded communication framework using sockets to be utilized for tasks like filestreaming, project management software, and task automation supporting 50+ simultaneous users.
- Utilized object-oriented design principles to create a reusable and scalable framework, enhancing maintainability and future development.
- Containerized the application using Docker to enable seamless one-click deployment and self-hosting capability on major cloud providers like AWS and Azure.

INVOLVEMENT

Coordinator, Advisor, Google Cloud Facilitator | Shiv Nadar University | Google Developer Student Clubs (GDSC)

| August 2022 - April 2024

- Led the "30 Days of Cloud" program at GDSC, facilitating Google Cloud training for over 150 participants and helping them achieve Google Cloud certifications.
- Conducted 15 annual tech workshops, educating 500+ participants on Google technologies such as Android development with Flutter and Firebase.
- Coordinated with Google and university representatives to enhance the learning experience and increase participation in cloud-based programs.

Chairperson | Shiv Nadar University | Association of Computing Machinery (ACM) | March 2022 - March 2023

- Organized the university's flagship Glitch hackathon, attracting over 200 participants from across India.
- Facilitated 12 networking sessions with experts in fields like Machine Learning and Cybersecurity boosting interdisciplinary collaboration and increasing participant engagement by 30%.
- Represented the university at ACM India's research summit, showcasing our commitment to computer science research and forging partnerships with industry and academic leaders.

SKILLS

Technical Skills: Java, JavaScript, Python, C++, Bash
