B. Tech Computer Science and Engineering	Shiv Nadar University	2020-24	8.3
High School (Class 12)	Atmiya Vidya Mandir	2020	96.2%
Senior Secondary School (Class 10)	Atmiya Vidya Mandir	2018	95.2%

OBJECTIVE

- Full-stack developer with a keen interest in Java Technology and experience in web development. I am currently exploring Cloud Computing, DevOps, and App Modernisation and looking for internships to expand my knowledge in these fields.

SKILLS & INTERESTS

- Programming Languages:** Java (*Advanced*), JavaScript (*Advanced*), Python (*Intermediate*), C/C++ (*Intermediate*)
- Tools & Libraries:** Nodejs, Expressjs, MongoDB, Google Cloud Platform, Kubernetes
- Interests:** DevOps, Cloud Computing

PROJECTS

- insuredX | Business Research on the App Modernisation for an insurance company** [June'22-Present]
 - Link:** <https://cloud.meghrathod.dev/docs/insuredx/insuredx-research>
 - Mentored by a program manager at Red Hat, I was tasked with analysing a real-life-based problem of an insurance firm for its technical infrastructure modernisation.
 - Carefully analysed the current infrastructure and took decisions based on research for its upgrades.
 - Created complete functional and technical architectures for the new infrastructure based on container technologies.
- chatX | A Java-based framework for communication** [Sept'21-Dec'21]
 - Link:** <https://github.com/meghrathod/chatX>
 - chatX is a Java chat app that uses socket programming and concurrency.
 - Made a framework rather than just an app to facilitate communication between devices on the internet.
 - This framework can then be utilised for tasks like file streaming, project management software and task automation.
- Secretify | A JavaScript-based web app for anonymous secret sharing Name** [Mar'21-Aug'21]
 - Link:** <https://github.com/meghrathod/Secretify>
 - Secretify enables users to anonymously share textual secrets or messages that all platform viewers can see.
 - Back-end was based on Expressjs and MongoDB and used RESTful API.
 - Implemented authentication with Passportjs and used Google's OAuth 2.0 to handle user sign-ups.

RELEVANT COURSES

- Introduction to Computing and Programming | Data Structures and Algorithms** [1st year]
- Object Oriented Programming in Java | Computer Organisation and Architecture | Operating Systems** [2nd year]

WORK EXPERIENCE

- ACM Chairperson | ACM Chairperson** [Jan'22-Present]
 - Lead my team (of 20+ students) in organising seminars, hackathons, and other technical events in the community. With these drives, I have gained immense knowledge in wide tech domains like Cloud Computing, DevOps etc.
- Coordinator | Google Developer Student Clubs - Shiv Nadar University** [Sep'21-Jun'22]
 - Lead the team (of 50+ students) in organising various events and workshops for a very progressive developer community of over 600 students while also being the point of contact for conducting Google-hosted events for students on my campus.
- Google Cloud Facilitator | Google Developer Student Clubs - Shiv Nadar University** [Sep'21-Nov'21]
 - Hosted the 30 Days of Google Cloud Program at Shiv Nadar University with 280+ participants.
 - Coordinated the progress and difficulties faced by students to Google India and resolved them collectively with the national program managers.
